

STUDENT TEACHING AND INTERNSHIPS

The Board, recognizing both its responsibility to improve the quality of teacher training and the contribution that student teachers and interns can make to the school system, encourages and authorizes the Superintendent, in cooperation with accredited institutions of higher learning, to arrange for the placement and supervision of a reasonable number of student teachers and interns in the District each year.

No teacher shall be requested to act as supervisory teacher more than twice in any school year when other qualified supervisory teachers are available.

The building principal will be responsible for utilizing procedures to evaluate the performance of student teachers and interns that satisfy the requirements of the sending institution and are consistent with Board's policies.
